# From the **Director's** desk

YS Schools, i.e. Generation Next Schools, are meant for Generation Next Students. These students have taken birth in a technological and networked era, and for them, the world is changing quickly into a global village. They will face this world after fifteen years, and for such students, the meaning of Education is undoubtedly different from the convention. This generation deserves an education that is more than academics. Today's Education must focus on the development of skills and values among the students. In today's era, the student needs to understand practical applications, analysis and comprehensions rather than use his mind merely as a storage space. This generation certainly requires moral values without losing the traditional traits. In short, the children of today need Education for tomorrow, i.e. Generation Next Education. I believe that YS Schools are the Generation Next Schools and are, in a true sense, instrumental in creating the citizens of Next Generation.

# Work Culture @YS

**Unparalleled Faculty:** A school is known for its teaching staff and special educators who are well qualified, experienced and capable of imparting quality education to the students. Keeping this in view, we have consistently employed teachers who have a good academic track record and who meet the norms laid down by CBSE for their selection. There are more than 200 faculty members associated with YS Group. Faculty Members from UK & Other countries are also invited from time to time to give a grand global exposure to the students. Till now 7 faculty members from different countries have served the organization.

**Growth and Development:** "Growth and development of people is the highest calling of Leadership" and YS Group is known for producing leaders. YS is a place for people who are keen learners, flexible, soft, as all these are the qualities of people who are living. And they say that growing old is mandatory and growing up is optional, here in YS endless options are given to every faculty members for his/her growth and development.

**Peer Learning Sessions:** Every one need polishing to shine more and more. This shine becomes brighter when a person does it with his/her will and from heart. To ensure the same we @ YS follow Peer Learning Programme in which a teacher choose other teacher and sit in his/her class to learn new and new things.

**Learn and Rise Programme:** Every Individual has something to give to others as everyone is with one or other talent. In learn and Rise Programme teachers conduct workshops for his/her colleagues. This ensures that everyone in the organization is working with the same vision and all of us rise together as a team.

# Facilities @YS

**Hostel Facility:** YS Group believes in selecting Passionate, Qualified, Innovative teachers for the bright future of students. To ensure the same YS Group has provided Hostel Facility for single female teachers so that geographical locations may not become obstacle in selection process.

**Roohdariyan** (Honoring the Hardwork of Pillars of YS): The strength of YS lies in the teachers who put their heart and soul in teaching the future of the country, who are making a huge impact . To recognize their hard work, to show them how grateful we are, and to ensure that our teachers are healthy and content, we gift health policy to teachers who have been a part of the family for 5 years or more.

# Induction Program & Farewell Party

Whenever we enter into a new environment there comes a Lag phase to our growth because we take time to adapt to the new environment, we take time to make new friends, and we take time to know each other. To convert this Lag phase into Log Phase @ YS Group at the start of every new session there is an event called "INDUCTION" Party where new hires mingle up with the old ones through lots of fun and ice breaking activities along with all the joy and fun. There take place vision sharing by Core Group Members and Old faculty.

"Workplace is our second home" rather we will say they are FIRST as this is the place where we devote more than half of the day. Day by day.... year by year one's emotions, feelings and ownership for the workplace increases and as an institute we respect it. We strongly believe it is because of LOVE, ATTACHMENT and EMOTIONS that **YS Group** is touching new heights daily.

To pay Tribute; Farewells are organized for Faculty members. Where they along with their Family members cherish their journey in **YS Group**. Farewells are most joyful and unforgettable moments for faculty member.
