# YS School

HAR **YS** STUDENT  
EK **CONFIDENT**  
STUDENT

# FOUNDER

(May 15, 1947 - July 05, 2007)

**Late Madam Shanta Kumar** is the founding persona who exemplified a complete personality as a philanthropist, educationist, and successful administrator. Her exceptional leadership qualities, dynamism, courage of conviction and unwavering commitment to excellence continue to guide and inspire us. Madam Shanta Kumar's charisma will always remain etched in our minds as an exemplary role model for all who aspire to achieve and strive to transform their dreams into reality.

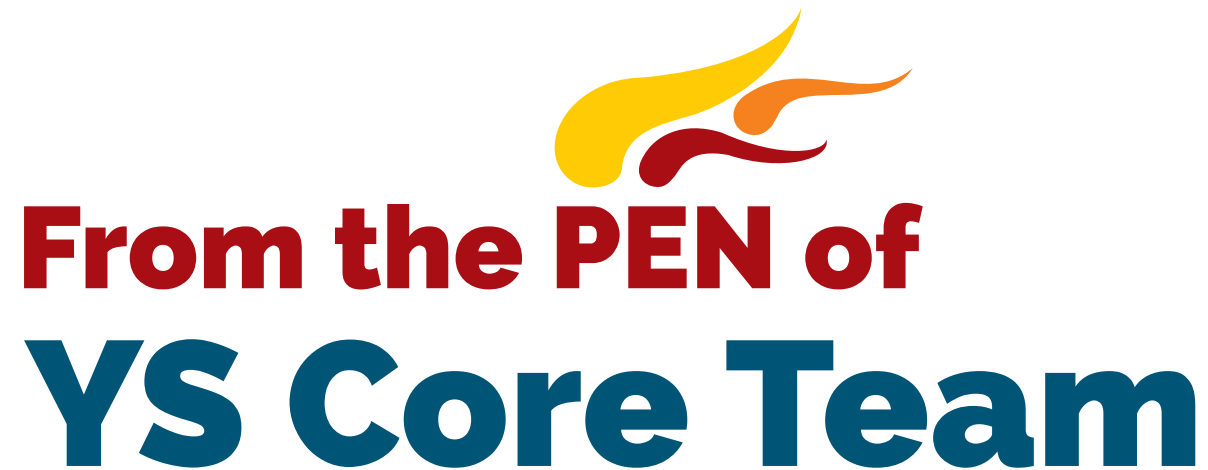

## WORD FROM DIRECTOR'S DESK

**VARUN BHARTI**  
B.Tech, MBA (IIT Delhi)

”

YS Schools, i.e. Generation Next Schools, are meant for Generation Next Students. These students have taken birth in a technological and networked era, and for them, the world is changing quickly into a global village. They will face this world after fifteen years, and for such students, the meaning of Education is undoubtedly different from the convention. This generation deserves an education that is more than academics. Today's Education must focus on the development of skills and values among the students. In today's era, the student needs to understand practical applications, analysis and comprehensions rather than use his mind merely as a storage space. Holistic development, exposure and interaction with confidence rather than bookish knowledge will be buzz words for the era. This generation certainly requires moral values without losing the traditional traits. In short, the children of today need Education for tomorrow, i.e. Generation Next Education. I believe that YS Schools are the Generation Next Schools and are, in a true sense, instrumental in creating the citizens of Next Generation.

# From the PEN of YS Core Team

Mehak Sharma  
HR Head

“Education is our passport to the future, for tomorrow belongs to the people who prepare for it today”. Knowledge is power. We at YS encourage our students to start harnessing the power today.

Tushar Sharma  
Social Media Head

Today, We live in a world that is changing at such an accelerated rate that today's generation deserves holistic development, exposure and interaction with confidence rather than just academics. All this requires vision and long term planning.

Best faculty, quality infrastructure, technologically advanced studies with all-around development and career-oriented grooming have become synonymous with Young Scholars Schools. Today, aiming for the unachievable and continuously raising the bar has become a part of the Young Scholars Team. We will never rest on our laurels because the search for excellence is relentless.

Bimmi Puri  
Principal

As an Educationist, what I strongly witnessed and learnt that "Education is not filling student's mind with lots of information and expecting him to mug up and retain but its objective is to develop capabilities in child to live a better life"

- ▶ Capabilities to Read, Write and Express his/her thoughts
  - ▶ Capabilities to observe, analyse and implement
  - ▶ Capabilities to explore the world around
  - ▶ Capabilities to listen, understand and respect everyone's point of view
- Educating a child means to work upon 3Hs of child and that's Heart, Head and Hands, where Head means giving Academic Excellence to child and enlightening him with knowledge Heart means developing child as a sensible human being who cares for people and society Hands means giving him skills and capabilities to live a better life.

Mohit Jindal  
Academic Coordinator

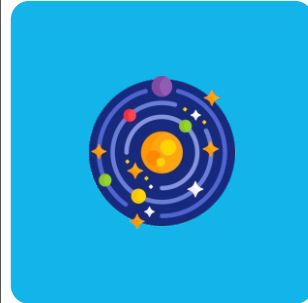

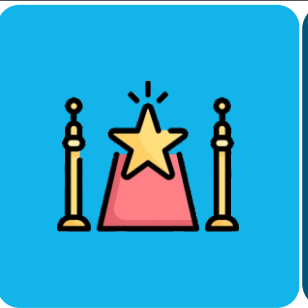

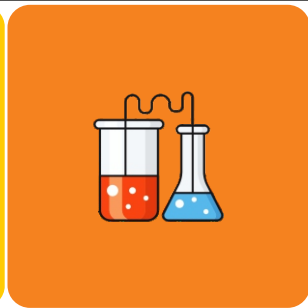

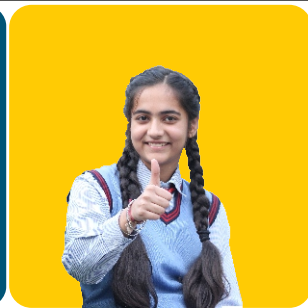

Education is not just to have Academic Excellence, Education means the Overall Development of a child. As the coordinators in YS, we ensure The 360 Development of the Child with lots of exposure & practical learning.

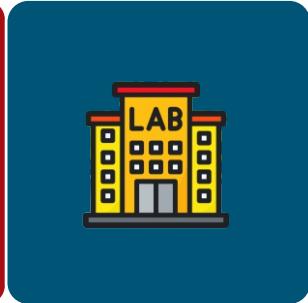

Deeksha Sharma  
Academic Coordinator

Children are like clay in the hands of teachers like a sculptor. We can chisel and carve their personalities with our behaviour. The exposure provided to them will give them wings to fly and help them express themselves at their peak. They will be kinesthetic learners, not the book worms. They will make a generation of learners who learn by doing, performing wonders and achieving unbelievable on all the grounds. All three domains of learning will be touched effectively as there will be all-around development in the cognitive, affective and psychomotor domains.

# ABOUT

YS School is a Generation Next School, one of the leading schools in the Area for providing Futuristic Education to students since its inception for more than 35 years.

YS is a school that firmly believes that the purpose of Education is not to fill students' minds with lots of information to mug up. Rather it is meant to equip him with lots of capabilities; Capabilities to think, Capabilities to create, Capabilities to innovate, and above all, abilities to face future challenges and live a happy and contented life.

YS School welcomes every child with lots of opportunities. Advanced Classes, Robotics, MUN Club, Flyers Club, Literary Arts Club, Young Artist Club, Reading Program, ATL Classes, Booting Up Sessions, Inspiration Series, Martial Arts Classes, Smart Talks, English Communication Classes are a few of such programs, which have been very instrumental in imbining futuristic skills among students.

YS School is continuously working to give happy and contented life to its students. For such continuous efforts, School has been awarded at various renowned platforms in the last few years

# TECHNO FEST

# ATAL TINKERING LAB

ATL is an approach of the Central government of India to create an environment of scientific temperament, innovation, creativity amongst Indian Students. It is a step towards a new India. The Government of India has set up the Atal Innovation Mission (AIM) at NITI Aayog. Realizing the need to create a scientific temper and cultivate the spirit of curiosity and innovation among young minds, AIM proposes to support establishing a network of ATAL Tinkering Laboratories (ATL). This scheme aims to foster curiosity, creativity, and imagination in young minds and teach design mindset, computational thinking, adaptive learning, physical computing, etc. Established ATL @ YS Public School, Handiaya, in 2018 and established ATL @ YS School, Barnala in the year 2019. Young Scholars have already started putting their hands-on practice by working upon Science, Electronics, Robotics, open-source Micro-controller boards, Sensors and 3D Printers and Computers.

## Benefits of ATL

- New technology and gadgets for hands-on practice.
- Understanding of STEM subjects is made easier.
- Monthly engagement activities to give the plethora of opportunities to tinker.
- Resourceful hard copies of manuals on various subjects such as 3D Printing, Arduino, Raspberry Pi, etc.
- Participation in international level competitions and events such as IRC League, Avishkaar Makeathon, Avishkaar Residential Training where students and mentors get an opportunity to participate and win amazing prizes such as entry to IRC Internationals and sponsored international educational trips.
- Specially designed online activities are sent to trainers by the government of India to keep the scholars engaged and tinkering.
- Fostering curiosity, creativity, and innovation among students.
- Do it yourself kits and equipments for scholars.

# ROBOTICS EDUCATION

Generation Next Education  
Generation Next Education  
Generation Next Education  
Generation Next Education

We pride ourselves on being the first Schools in this area to get students ready for the 21st century through Robotics Science. The purpose of School is not only to prepare students for the present but also to groom them for what is in the future. And we indeed take pride in introducing Robotics Science to students of 6th Class and above, where students themselves think, design, build, program and test Robots. Along with creating more robust concepts and fostering to broaden horizons, Robotics Science also proves to help provide a sense of challenge and the freedom to think Features

## ROBOGENIUS

Year after year, our Young Scholars have been participating in large numbers at Robotics Competitions. For example, in 2013, YS students bagged 1st position in North India First Lego League Robotics Championship, where they outclassed competing teams from places like Delhi, Gurugram and Chandigarh.”

Students at YS regularly participate in one or the other state/national level competition, which gives them a sense of learning and other skills.

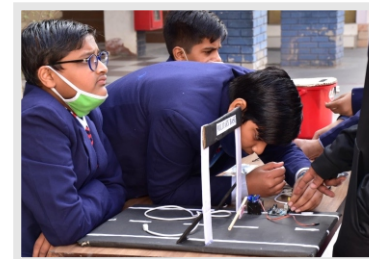

## WORLD ROBOTICS CHAMPIONSHIP

Our Young Scholars participated in the World Robotics Championship held in Delhi in 2019, where students from 22 countries competed. Our scholars competed with teams across the globe and wonderfully presented themselves.

# YOUNG *Diplomats*

## ONLINE MUN

Online MUN is another initiative by YS School where students debate online being the delegates of one or the other country. Students choose committees, research and share their views online only and hence get to work upon their research skills. Moreover, side by side, they get a chance to interact with delegates at the international level, which enhances their debating and communication skills.

The participation in various MUN conferences has remained endless and perpetual, enhancing the confidence of the scholars.

# Tomorrow's Leaders

## Model United Nations

"Public Speaking is a quality which everyone wants to encompass, but only those get command over it who grab the opportunities given to them."

YS School has joined hands with IIMUN to start the MUN Barnala Chapter. The main objectives of MUN are: To provide a holistic platform to scholars where they discuss various Local, National & International concerns, to make them intellectuals so that they can be part of problem-solving entities.

To enhance communication skills and confidence, scholars are taught to act as delegates of different nations & discuss National & International concerns to bring a change in the world by adopting resolutions and forward to United Nations.

Our MUN Club members keep participating in various conferences at different schools, colleges and universities and become the centre of attraction with solid points and public speaking skills

## Future Diplomats

We are in a league to produce future diplomats as students in these conferences get chances to come forward and share their views about the national and international social issues with all others present there.

Research Skills | Analytical Skills | Debating Skills | Group Discussion  
Presentation Skills | Cooperation | Vocabulary Building

YS School, Barnala has been bagging the **"Best Delegation" Trophy** for the last **four years** till date.

**Best Delegation Trophy,  
Chapter-1 (2017)**

**Best Delegation Trophy,  
Chapter-2 (2017)**

**Best Delegation Trophy,  
Chapter-3 (2018)**

**Best Delegation Trophy,  
Chapter-4 (2019)**

Not only this, many of our students have started acting as **EBs (Executive Board)** in various **MUN conferences** because of their **best speaking and judging skills**.

## MUN @ SHANGHAI, CHINA

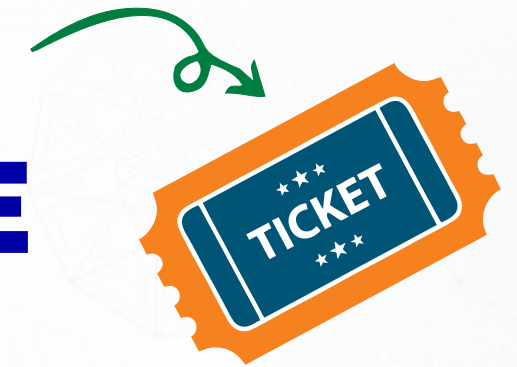

These MUN conferences are not limited to our school or country but an international level as well. Few of our scholars have participated in "Concordia International School Shanghai MUN" in China. Such opportunities are once in a lifetime and help in gaining the confidence to stand different among all.

# YOUNG *Presenters*

## TICKET TO INCREDIBLE INDIA

This practice enables our young scholars to present any part of our diverse country, India and get the ticket as a token of appreciation. This way, the scholars get to research, study and detail different parts of India, where they further learn to present those parts through presentation skills such as a platform to exchange and spread knowledge in the best possible way.

# FLYER'S CLUB

Flyer's Club is a unique and exciting way of teaching geographical concepts with concept clarity and fun blend. Students are issued YS passports. Subsequently, Young Scholars begin their research, followed by collecting all relevant details and facts about a particular country in which they prefer. Then, young Explorers prepare a presentation and appear in front of an interviewing panel (Embassy). Panel asks specific questions about a preferred nation like Geographical conditions, demographics, culture, economic and social environment, intended flight details etc. Consequently, after due observation and as per the presentations, the panel grants visas to the prospective candidates. In case the candidate is found unprepared embassy re-schedules another appointment and asks the candidate to appear again.

  
**500+**  
**Visas stamped  
on YS Passport**

# YOUNG *Speakers*

## ENGLISH SPEAKING ENVIRONMENT

In most of the schools, English finds place only in the Reading and Writing sections. In YS, the focus is on all the four skills of English, i.e. Reading, Writing, Speaking and Listening. Scholars are provided with regular exposure to these four skills to make them proficient in English Language.

## ENGLISH COMMUNICATION CLASSES

In our quest to improve student's communication skills, we have initiated English Communication Classes from Nursery to 8th grade. These classes are conducted by a team of expert Communication Trainers, where they mainly focus on the verbal component, pronunciation, confidence and public speaking skills.

## ENGLISH COMMUNICATION PROJECTS

Aspiring Scholars conduct many surveys on different themes like Energy Crisis, Cleanliness, Water Shortage, etc., to make the people aware about various issues & also to practice their learnt skills. The surveys turn out to be very successful & people have shown appreciation for the Confidence and communication skills of the scholars. Through these projects, they not only interact with their parents and siblings but also with strangers. Even the parents are filled with pride seeing their little ones speaking so fluently & impressively.

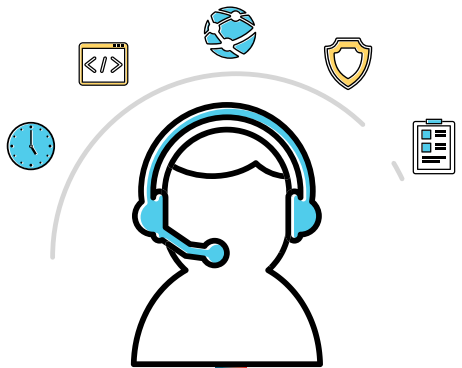

# LANGUAGE LABS

Language Labs at YS School and YSP School got set up in 2019 licensed by a Finland based Company. This lab helps students to avail themselves of the opportunity of polishing their Communication Skills and gain more Confidence.

Language Labs at YS is an initiative to make students learn themselves through the new and modern technology.

## Features:

- Provides exposure of worldwide languages to students
- Assist students in polishing their pronunciation and accent
- Enhance listening skills of students
- It is helpful to improve the reading skills of students
- Provides quick assessment of speaking skills

# YOUNG *Skilled*

## A stylized illustration of a person with short, light-colored hair, wearing a bright yellow t-shirt. They are sitting at a desk, leaning forward and writing in an open notebook with a black pen. The notebook has several horizontal lines on its pages. To the right of the notebook is a white mug with a handle. Above the person's head, there are decorative elements: a blue circle, a red circle, and a series of blue dots connected by a dashed line, suggesting a thought process or a path. The background is plain white.

### Trip Song

We went on a trip, we rented a house.  
In the old house was big Mouse.  
I was scared and ran away, there is nowhere else to go, so I have to stay.  
There was a crack on the roof so we went and repaired it .  
The thunder was coming so we prepared it.  
The thunder raged in our house and the door broke out .  
The thunder went away and I went out to play.  
I made some friends here, they showed me their cute teddy bears.  
I asked them, could I borrow them for now ?  
They said 'no' and went inside their house.  
I asked my mom could you buy me one?  
She said you already have one.  
I want one to play with now.  
But how you will see me now?  
The door broke out because it was not strong.  
ohh no we have to deal with a lot of stuff.  
It was a scary night for me because the door was broken so  
we covered it up using a pair of curtains.

# NTSE Classes

In YS Schools, we create separate sections of willing and academically strong students and form an NTSE batch from 6th class onwards and the focus is on in-depth concepts and analysis of each topic of all subjects. In addition, the schools have well experienced and devoted separate faculty to guide students and other teaching faculty periodically to ensure consistency and quality work.

## What is the NTSE?

From all over India, around 1000 scholarships are awarded to NTSE Scholars. The Government of India honours and helps talented students by providing financial assistance in a monthly scholarship. This scholarship is provided for basic Sciences up to PhD level for professional courses like Engineering, Medicine, Management and Law. This assistance is given only up to Post Graduation. National Talent Search Examination (NTSE) is a national level scholarship program in India to identify and nurture talented students. Students studying in Class 10th are eligible to appear for the selection process. The examination is organized by an autonomous body (National Council of Educational Research and Training). It is widely regarded as the most prestigious examination at the high school level in India.

## Features of NTSE @ YS

- Separate NTSE sections
- MCQ based Monthly Mock Test
- Full-Length Subject Tests followed by in-depth analysis
- Revision Classes & Doubt Clearing Sessions
- MAT Classes
- Career Counseling Sessions
- Discussions by Subject Experts
- Tips and Important Details
- Hi-Teas & Motivational Lectures

# YOULARS *Box*

We, at YS believe in **stress free, practical hands-on learning** rather than cramming subjects just for getting marks. One such innovative solution to achieve the aforesaid is our Youlars Box.

Yoular Boxes are an absolute mystery boxes for scholars which include mastered teaching tools for each grade & all subjects.

A Yoular Box includes **exploration kit material, topic based innovative chart, resource material, games & puzzles, maps & tables** and much more. The Yoular Box helps each scholar to actively engage in practical learning process at home and understand the basics.

Bye-Bye to conventional study methods with YS  
with Yoular Boxes!

## YOULARS APP

Objective of introducing Youlars App is to provide a well equipped and advanced tool to parents for effective communication with school.

# CREATIVE FEST

# Parents Footsteps

Education is a joint effort of both parents & teachers. YS always encourages parents to come to school from time to time for overall development of students.

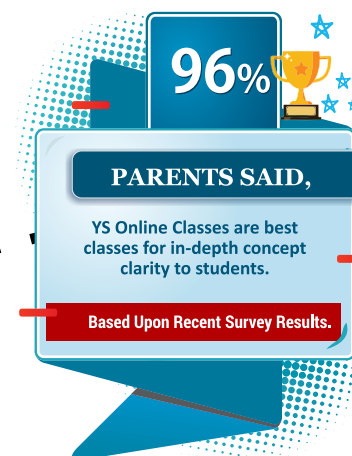

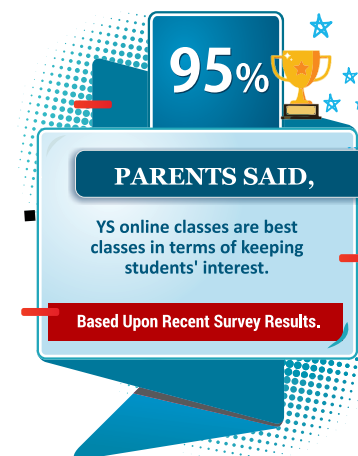

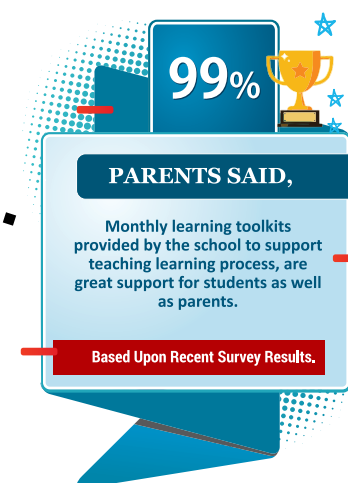

Parents are invited on many different occasions & workshops to be the partners in the school's efforts of bringing out the best in children. Parents are overwhelmed to witness amazing communication & presentation skills of their wards. They feel so emotional to see their children performing on stage with such marvelous confidence.

## OCCASIONS WHEN PARENT ARE INVITED TO SCHOOL

- Impressions
- Parents Teacher Interactions
- NTSE Awareness Workshop
- Workshop On Phonics
- Healthy Moms Healthy Kids
- Diet Tips by Dietician
- Explore Mathematics

# What Parents Say

# Faculty Development Programs

Well equipped faculty is one of the biggest assets of every organization. Faculty members need to be innovative and creative. In order to keep faculty updated with latest technology and curriculum, Faculty Development Programmes (FDP) are an integral part of YS Group. The training methodology of FDP includes case studies, group discussion, games, simulation exercise, visits and classroom lectures.

## FDP HIGHLIGHTS

- Educational Tour to Finland
- Workshop on Strategic Leadership for Schools in a Changing Environment at IIM Ahemdabad
- Seminar on Discipline of Strategy Execution at IIM Ahemdabad

- FDP Program on Cloud Computing at PTU Jalandhar
- Storytelling Workshop by Scholastic, Chandigarh
- Workshop on Literary and Arts at Chandigarh
- British Council Workshop at Chandigarh
- Seminars and Workshops by CBSE

# Admission Process for New Students

Whenever a child seeks admission to any class, parents can visit the school and meet Admission Counsellor. After enquiry,

## Step:1

Parents can register the child by paying Registration Fee. After Registration, Parents are provided with the Sample Papers for Admission Test. Objective of sample papers is to facilitate the parents to have an idea about Syllabus and pattern of the paper.

## Step:2

Afterwards, child is invited to appear for the Admission Test. (Interactions for Kinder Garten Classes) Date for Admission Test/Interaction is intimated to parents, at the time of Registration. Objective of Admission test/Interaction is to decide the Grade Level of the child, depending upon his basic competencies

## Step:3

Depending upon child's performance in Admission Test, Child's eligibility for particular Grade is discussed with the parents. Admission depends upon child's eligibility for the particular Grade and availability of seats in that particular class. However, the School Authorities reserve the rights to refuse admission to any student without assigning any reason.

## Step:4

After approval for Admission by Principal, Parents can admit the child. At the time of Admission, parents are to submit :-

- School Admission Form (Duly Signed by Parents)
- Admission Fee along with fee for the first quarter ( April, May and June)
- Self Attested Copy of Birth Certificate of Child
- Self Attested Copy of Aadhar Card of Child and Parents
- Report Card of Previous Class (not applicable for admission in nursery)
- School Leaving Certificate of Child(not applicable for admission in nursery)
- 4 passport size Photographs of Child and 2 passport size Photographs of Parents

## FEES DETAILS

### The fees will be charged as under:-

Fees for Quarter-1 i.e. April, May and June are to be paid by last date of Admission given by the school.

Fees for Quarter-2 i.e July, August and September along with Examination Fee are to be paid in July till 10<sup>th</sup> July

Fees for Quarter-3 i.e October, November and December are to be paid in October till 10<sup>th</sup> October

Fees for Quarter-4 i.e January, February and March along with Examination Fee are to be paid in January till 10<sup>th</sup> January

**A fine of INR 15/- per day will be charged for late fee payment. If the fee is not paid up to 15th of the first month of quarter, the school reserves the rights to struck off student's name from the School.**

## CONCESSION

Concession of INR 300/- per month in monthly fees and INR 500/- in admission fee is available to the second and subsequent child. A maximum admission fee concession of up to 50% is available for outstanding students in academics, sports and co-curricular activities. In such a case, the Principal will be the sole judge.

## DISCIPLINE

The school management expects that children will abide by the rules and norms laid down from time to time for the betterment of the School. In the event of unacceptable indiscipline or insubordination, the School management and Principal will reserve the right to expel them from the School. Also, the Principal reserves the right to expel the child from the School in case of student's poor academic standards owing to any reason.

## SCHOOL LEAVING CERTIFICATE

If a student wants to have a school-leaving certificate issued, the parent/guardian must apply for it at least one month in advance. The school fees for that quarter in which the certificate is required will be deposited.

## SCHOOL UNIFORM

Updated School uniform can be confirmed from the School office from time to time. Non-Compliance to the prescribed uniform and pattern of dress will lead to immediate suspension from School till the acceptable outfit is worn.

**Please note that these rules are subject to change without any prior notice.**
